

Pijnenburg International Technical Services

Machine type	Blank Length	Blank Length	Height of side flaps	Height of side flaps + lid	Conicity
	L	B	H	H1	
L1000/2-A/B/C	100mm-450mm	100mm-450mm	15mm-260mm	50mm-260mm	5° ~ 40°

Differences among L1000/2-A/B/C:	
L1000/2-A	Only can make the same box on two lanes at the same time
L1000/2-B	Can make different boxes on the two lanes at the same time
L1000/2-C	Adopts mechanical device to control the punching head

Specifications:			
Voltage	380V/50Hz	Covering area	4,0mX1,4m
Total power	8kW	Max. production speed	400 pcs/min
Air pressure	0,6 Mpa (dry and clean compressed air)		
Materials	Paper board 200 ~ 600gsm; Corrugated board paper with thickness that will not exceed 1,5 mm
